

Objective

The Conservative Income Portfolio aims to deliver a total return of inflation (CPI) +2% pa. over rolling five-year periods. It is anticipated that a substantial proportion of the total return will come from income.

Suitability

Designed for investors who seek a regular investment income together with prospects for limited capital growth over not less than 5 years, and to achieve this are prepared to accept some short-term potential for capital losses.

Asset Allocation

The portfolio can invest across all asset classes, but it is limited to a maximum equity weighting of 35%.

Risk Profile

The portfolio adopts a low to moderate approach to risk and it is anticipated its volatility will not exceed 35% of global market equity volatility.
