

Objective

The Adventurous Growth Portfolio aims to deliver a total return of inflation (CPI) +5% pa. over rolling five-year periods.

Suitability

Designed for investors who seek a lower-cost means of achieving investment growth over not less than 5 years and who are prepared to accept the possibility of larger short-term capital losses to achieve strong market returns.

Asset Allocation

The portfolio can invest across all asset classes using passive instruments, but it is limited to a maximum equity weighting of 100%.

Risk Profile

The portfolio adopts a higher approach to risk and it is anticipated its volatility will not exceed 100% of global market equity volatility.
